1. Purpose

This Policy applies to all Department of Education (DoE) staff in all learning settings to ensure they provide medical and health care appropriate to their duty of care, and a safe physical learning environment for all students.

2. Policy Statement

DoE is committed to ensuring that all schools:

- provide medical and health care appropriate to their duty of care towards students, including students with intensive health care requirements
- are physically safe places
- adhere to legislation relating to child safety and information technology
- adhere to relevant sections of the Education Act 2016
- adhere to relevant sections of the Department of Education’s Legal Issues Handbook TASED-4-2645 - Version 3.0
- make relevant connections between student health care and the Australian Curriculum

To ensure a safe learning environment for all children and students, including those with intensive health care requirements, all schools must:

- Implement procedures and practices related to student health that comply with legal obligations and government and departmental guidelines (eg Infection Prevention and Control)
- Where required, collaborate with parents and medical personnel to make appropriate provision for medical and health care on an individual basis, including when appropriate the development and implementation of Medical Action Plans
- Follow departmental guidelines in relation to acute incidents or community health issues
- Provide first aid (including emergency care) when required and temporary care for children and students who become unwell at school
- Adhere to departmental guidelines in relation to the administration of and safe storage of medications.
