What matters to me (READING)

Reading matters a lot to me because it entertains me. I am reading lots of books by Erin hunter sometimes I shed a tear because it gets sad. But reading is a very important thing to do in our lives because we get entertained, we learn new words and it makes us happy (some of us). I read lots of books every year and that’s a good thing. If books went extinct right now (LIKE THEY WOULD) TO BE HONEST I WOULD BE BORED. Same with the library we have, I wouldn’t be a book addict today. But When I started reading books I hated it!

The books I read are manga, graphic novels and more!

I especially love animal books, fiction and dragon books. I read on the bus to and from school, after bedtime (which I am not allowed to do that) and in my free time.

WHEN YOU GET INTO A BOOK IT INSPIRES YOU, MAKES YOU WANT TO READ MORE! I HAVE READ 1 2 3... 209 210... 300 301... AND SO ON.

I MADE UP A LITTLE SONG.😁😁😀😀❤✡
OPEN THE DOOR GET ON THE FLOOR
EVERYONE READ SOME BOOKS GALORE.
SO GRAB A BOOK AND READ IT GOD DAMMIT!

Reading is educational and fun, only when you get your nose into the right book, the true book is the book you need to find and read. I think novels are the best books to read because they are long and they keep you entertained for a while. My collection of books is pretty big. Hopefully I will get more books on my bookshelf on my birthday. I really hate cliff hangers because it’s the end of the book. Something exciting is about to happen but you need to either buy the next book or borrow it from the library.

Fiction books are my favourite books, fantasy or animals is on my list too.

Oh books oh books oh beloved books
Guide me guide me tell me tell me
Show me show me the path I should take
Will someone die or will they have cake
Need more need more, need more books
There’s nothing that will ever replace you.

I would replace my TV time for reading time
I would get sick for reading on the bus
I would skip dinner for some fun reading
I would spend my recess and lunch for reading
I would spend the rest of my life reading
I love you books.

BOOKS ARE BEST
